

***Diesel Generator Sales, Hire,
Service, Refurbishment,
Spares & Maintenance***

Certificate No: FM 36735

Finance arrangements for Domestic Generators

Yorpower understand that an investment in a generator is an important decision for our customers. For this reason we have introduced a generator financing scheme to allow customers to enjoy all the benefits of a Yorpower diesel generator, without the initial outlay.

Schemes typically run for 36 months, but are flexible. The generator is paid for in fixed monthly payments, and generator maintenance can be included at the customer's request.

Should you wish to purchase a generator from us under our financing scheme, please contact us and we will be pleased to provide an illustration of the monthly costs for your generator.
