

Yorpower Manufacturing Ltd

***Diesel Generator Sales, Hire, Service,
Spares, Refurbishment & Maintenance***

Generator Hire from Yorpower

- **Generator fleet from 12.5 to 200kVA**
- **Larger generators available for hire on request**
- **Lighting Towers available for hire**
- **24/7 support and replacement available**

At Yorpower we pride ourselves on our ability to meet every aspect of customer requirements for generator sets.

Therefore as well as offering generator sets for sale and full after market support, we also operate a fleet of generator sets and lighting towers available for hire. These can be transported anywhere in the UK at short notice.

We ensure our hire fleet is of the highest quality – to precisely the same standards as our generator sets we sell. Our hire division also complies with the ISO9001:2000 QA accreditation which applies to the whole company. You can therefore be assured that our hire sets are high quality and reliable. We also maintain and offer immediate repair support or replacement sets in the unlikely event of a difficulty being experienced with our hire sets.

All of our hire sets are supplied with sound attenuating and weather proof canopies. This ensures noise levels are kept to a minimum, so that whatever your requirement there is minimal disruption to your business. As an option, we can provide external fuel tanks and cables. Our engineers are available to assist with installation as required.

Since our hire fleet is comprised of modern sets and is regularly serviced, you can also be sure that environmental emissions are minimised in accordance with current regulations. Furthermore, this approach ensures fuel consumption is also minimised, ensuring your costs of hire are kept to a minimum.

Please contact us for all your hire set requirements and current fleet availability.
