More Power from Yorpower!

The Newsletter of Yorpower & Techkol Power Generation

Four major sets for Kuwait!

In a breakthrough order for the company, Yorpower recently supplied four off 1700kVA generators for a prestigious client in Kuwait.

The generators are complete with synchronizing panels and underwent client witness tests prior to dispatch.

Two of the generators being loaded prior to shipping to Kuwait

150kVA complete with bespoke container for the Environment Agency

Yorpower supplied and installed this set near Dartford in Kent recently. The generator provides backup power to a tidal defence system in the local area.

As well as installation, Yorpower decommissioned and removed the previous generator from site, and also decommissioned an underground fuel tank that is now surplus to requirements.

EXPORT NEWS!

Ghana Distributor visits TPG in York

We were delighted to welcome Mr Samuel Boateng from Ghana for a one week visit in May. During the visit he toured Group facilities for Techknol and Yorpower. He also made two factory visits to Perkins and Cummins. Several new orders were received and a new purchasing agreement for a broader scope of supply by Techknol into Ghana was signed.

Alamoudi Group visit to TPG in York

We were also delighted to welcome Engineer Aiad from the Kingdom of Saudi Arabia for a visit in May. During the visit he also toured Group facilities for Techknol and Yorpower. Detailed discussions on business co-operation for KSA were held. The meeting followed the trade mission to KSA which Guy Phoenix attended in April.

On the left, the reception held in Khobar for the UK trade mission. On the right, one of the many companies TPG met in KSA

Standby Generator for Premier Inn

Yorpower supplied and installed a small set for the new Premier Inn in Hull. The generator provides backup power for the lift and sprinkler system in the event of a fire.

Power Plant Services News

Some of the many projects completed by PPS in recent weeks include:

- 4 x 2MW Load Bank Test for Interxion in London
- Sainsbury's Basingstoke Distribution centre repair works for generator
- Repair of a 300kVA generator for Swinton Insurance in Manchester
- Removal and disposal of two 1MW gas generators for Leeds City Council

Animal of the Month: Swimming Orangutans

Rare pictures show Orangutans swimming through the waters of the Rungan River, in Central Borneo, Indonesia.

Yorpower Manufacturing Ltd

Formed in 1989, Yorpower Manufacturing Limited headquartered in York, Great Britain, has grown to be one of the most recognized and successful suppliers of power generation equipment in the world. We have a simple approach – providing rapid and comprehensive customer service, whatever the requirement and wherever in the world it may be. Around half our annual turnover is exported, and we have supplied customers in over 55 countries to date. The Group's divisions include:

- Yorpower Industrial Generators Division 5 - 3000KVA
- Yorpower Domestic Generators Division 5 – 100kVA
 - Yorpower Spare Parts Division - GenSpare
 - Yorpower Refurbishment Division
- Service & Repair Division – Power Plant Services
 - Hire Division – Power Plant Services
- Gas Power Division – Operation and Maintenance of gas-fired power stations

The company has six strategically-located depots in the United Kingdom. Overseas Yorpower has an operation in Nairobi, Kenya, and distributors across Africa, the Middle East and Bangladesh.

The Company is part of the same Group as Technol Power Generation Ltd, a bespoke generator supplier to many customers in the Middle East, Bangladesh and Far East.
